

Our new electronics platform  
**SmartCom**

**Ultimate steering precision**

**More capacity**

**Cloud connections**

**Full ISOBUS**

**Higher spray precision**

**Faster service**

**Advanced diagnostics**

# SmartCom

*Prepared for the future*

## The HARDI SmartCom platform will let you enter a future of plug-and-play with unlimited capacity

The HARDI SmartCom offers the user a full ISOBUS experience, meaning easy connection to tractors and controllers. The faster processor will also offer you a more accurate and responsive liquid regulation system as well as the ultimate steering system thanks to faster response times.

We have prepared the HARDI SmartCom for online connections, so you will be able to connect to your favorite cloud solutions.

We have developed the new HARDI SmartLink cable to give the service staff the possibility of updating the sprayer, diagnosing errors and adding features, directly from the HARDI ServiceTool.

All in all, with HARDI SmartCom, you are prepared for the future.

- ▶ Full ISOBUS for easy connection
- ▶ Quick and easy diagnostics with HARDI ServiceTool
- ▶ Prepared for remote diagnostics
- ▶ Faster and more precise regulation system
- ▶ Ultimate steering precision
- ▶ Prepared for cloud connections
- ▶ Faster process time

# HARDI ServiceTool

Update machines. Prepared for cloud connections.

## Modular network

The whole SmartCom system is modular and can be extended if more capacity is required. The SmartCom and power distribution units (PDU) are mounted on different locations on the sprayer.

The connection is always done between the PDUs, meaning there is only one wire from the front of the sprayer to the rear –

which reduces the problems of guiding a lot of wires over the boom lift or the steering part of a trailer sprayer.

The SmartCom has unlimited capacity by simply adding more SmartCom units to the sprayer.

## The Sprayer

### HARDI INTERNATIONAL A/S

is an international group whose basic idea is to satisfy the user's requirements for quality products which ensure efficient, punctual and precise application of crop protection products. Our world-wide distribution and sales network comprise of more than 100 countries where we are represented by importers, agents and sales subsidiaries. These are situated in Sweden, Norway, Denmark, the UK, France, Spain, North America, Germany, Australia, China and EMC – Russia & CIS countries.

Since 1957 HARDI has committed to the ever-increasing demands for efficient and precise plant protection. HARDI is the trendsetter within application of crop protection products. To achieve this position continued developments and innovation are essential. HARDI is committed to the long term future of plant protection.

### Testing procedures

Sprayers leaving HARDI INTERNATIONAL A/S are tested according to the strictest quality standards.

Our staff responsible for final testing are accredited to test and document national approvals and standards from: Germany (BBA/JKI), UK (NSTS), China (CCC) and Denmark, where HARDI is approved to inspect sprayers.

This ensures that the highest quality sprayers are delivered to farmers.

#HARDIsprayers

### Superb surface treatment

The high-technology surface treatment contains 13 treatments, including a pre-treatment and powder coat painting of all major components.

Together with the Delta/Magni treatment of nuts, bolts and other items, we supply high corrosion protection of our products.
